Management Commentary

“Our strong fourth quarter and record full year results reflect the benefits of the various investments and initiatives we have undertaken since 2018,” said Dale Foster, CEO of Wayside. “We have become a sales-focused organization through our Lifeboat Distribution business, and the investments in our sales teams and processes have led to our first year of double-digit gross profit growth since 2011. In fact, during the fourth quarter, our sales team brought in what we believe to be the largest booking in Company history, further validating that our strategy to deepen customer relationships and expand our vendor network is working.

“As we look to 2020, we plan to carry this strong momentum through the year and drive sustainable, profitable growth through our Lifeboat Distribution business. Our financial goals focus on both gross profit and adjusted EBITDA, which is a new metric that we are introducing this quarter as a supplemental measure of the profitability of our operations. With the scalability in our business model, we continue to believe that we can flow through a significant portion of our growth in gross profit to pre-tax income. We look forward to further executing on our strategy and delivering value for all Wayside stakeholders in 2020 and the years ahead.”

Unsolicited Proposal

On December 10, 2019, Wayside received a preliminary unsolicited proposal from Shepherd Kaplan Krochuk, LLC and North & Webster SSG, LLC (together, the "N&W Group") to acquire the Company for \$16.38 per share, subject to certain conditions. Although the N&W Group's offer expired on December 16, 2019, Wayside's board of directors took extensive measures to evaluate their proposal, including engaging Stifel Financial Corporation ("Stifel") to act as financial advisor to the board. Wayside management, members of the board of directors and Stifel engaged with principals of the N&W Group on multiple occasions to discuss their expired bid. After a thorough review of the inbound inquiry and in consultation with its advisors, the board determined that the expired bid was not in the best interest of shareholders and did not serve as a basis for further diligence or discussion. This was communicated to the N&W Group on February 11, 2020.

(1) We define adjusted gross billings as net sales in accordance with U.S. GAAP, adjusted for the cost of sales related to Software – security and highly interdependent with support and maintenance, support and other services. We provided a reconciliation of adjusted gross billings to net sales, which is the most directly comparable U.S. GAAP measure. We use adjusted gross billings of product and services as a supplemental measure of our performance to gain insight into the volume of business generated by our business, and to analyze the changes to our accounts receivable and accounts payable. Our use of adjusted gross billings of product and services as analytical tools has limitations, and you should not consider them in isolation or as substitutes for analysis of our financial results as reported under U.S. GAAP. In addition, other companies, including companies in our industry, might calculate adjusted gross billings of product and services or similarly titled measures differently, which may reduce their usefulness as comparative measures.

The tables below present net income reconciled to net income excluding separation expenses, net of taxes (Non-GAAP) (2), net income reconciled to adjusted EBITDA (3) and calculation of return on invested capital (4):

| Net income reconciled to net income excluding separation expenses, net of taxes (Non-GAAP): | Year ended | | Three months ended | |

| Net income excluding separation expenses, net of taxes | <u>\$ 6,863</u> | <u>\$ 5,546</u> | <u>\$ 2,022</u> | <u>\$ 1,739</u> |

(2) We define net income excluding separation expenses, net of taxes, as net income, plus separation expenses, less the income tax benefit attributable to the separation expenses. We provided a reconciliation of net income excluding separation expenses, net of taxes, to net income, which is the most directly comparable U.S. GAAP measures. We use net income excluding separation expense, net of taxes as supplemental measures of our performance to gain insight into comparison of our businesses profitability when compared to the prior year. Our use of net income excluding separation expenses, net of taxes has limitations, and you should not consider it in isolation or as a substitute for analysis of our financial results as reported under U.S. GAAP. In addition, other companies, including companies in our industry, might calculate separation expenses, separation expenses net of taxes, or similarly titled measures differently, which may reduce their usefulness as comparative measures.

(3) We define adjusted EBITDA, as net income, plus provision for income taxes, depreciation, amortization, share-based compensation, interest and separation expenses. We provided a reconciliation of adjusted EBITDA to net income, which is the most directly comparable U.S. GAAP measure. We use adjusted EBITDA as a supplemental measure of our performance to gain insight into comparison of our businesses profitability when compared to the prior year and our competitors. Adjusted EBITDA is also a component to our financial covenants in our credit facility. Our use of adjusted EBITDA has limitations, and you should not consider it in isolation or as a substitute for analysis of our financial results as reported under U.S. GAAP.
